

**CDC Health Advisory:  
Extensively Drug-Resistant *Salmonella* Typhi  
Infections Among U.S. Residents Without  
International Travel**

February 12, 2021

---

The CDC has detected multiple cases of extensively drug-resistant (XDR) *Salmonella* Typhi (Typhi) infections among U.S. residents without any history of travel to Pakistan or any other country. The CDC is providing information on these cases as well as clinical recommendations for the evaluation and management of typhoid fever and treatment recommendations for XDR Typhi infection.

In LA County, there have been no cases of XDR Typhi without linkage to international travel detected to date. Healthcare providers should report cases of typhoid fever within 1 working day to their local Public Health Department.

- **Los Angeles County DPH Acute Communicable Disease Control:** Fax a CMR to 888-397-3778 or 213-482-5508 or call 888-397-3993. For consultation call 213-240-7941.
- **Long Beach Health and Human Services:** Fax a CMR to 562-570-4374 or call 562-570-4302.
- **Pasadena Public Health Department:** Fax a CMR to 626-744-6115 or call 626-744-6089.
