- Infant Botulism Case - Refer to State Infant Botulism Treatment and Prevention Program (510) 231-7600

For Los Angeles County reports, fill out the Botulism Case Report Form (CDPH 8547). This is required under the Investigational New Drug (IND) protocol.

INITIAL IMPRESSION (refer to B-73 for case definitions)

- NOT CASE (No further Public Health action necessary at this time.)
- SUSPECT CASE Specify type: Suspect foodborne Suspect wound Unspecified at this time

TESTING REQUIREMENT

Public health laboratory testing for botulism is only performed with authorization by ACDC/AOD and is not done for 'rule out' purposes or academic reasons. Testing is **always done in conjunction** with administration of botulinum antitoxin treatment.

ACTIONS TAKEN (Check Boxes When Completed)

- Approve specimen testing from Public Health Laboratory (PHL), (562) 658-1300 or 658-1360, Fax (562) 401-5999.**
Refer to the "Specimen Submission Guidelines for Suspected Botulism (excluding infant botulism)".
 PHL Contact Name: _____ Date: _____ Time: _____
 Pre-treatment serum Gastric aspirate Stool/ Food item Wound aspirate/biopsy
- Explain to physician that the only antitoxin available is the Heptavalent Botulinum Antitoxin under an IND Protocol.**
They will need to read the protocol and directions that come with the antitoxin, obtain patient or family consent and fill out the requested forms and send forms directly to CDC.
- Approve antitoxin release.**
Call the CDC Emergency Operation Center (EOC) at (770) 488-7100. Explain that you are from California and need to be connected to someone at LAX Quarantine Station, (310) 215-2365.
 Quarantine Station Contact Name: _____ Date: _____ Time: _____
 Treated with heptavalent antitoxin? Yes No Date started: _____
- For suspect foodborne botulism,**
 - Request assistance from Environmental Health (EH) Food & Milk with home inspection at (626) 430-5400.**
 EH Contact Name: _____ Date: _____ Time: _____
 - Interview the case/ family regarding any risky food exposures.**
 - Whenever possible, go with EH-Food & Milk to search for potentially contaminated food for testing.**
