

Ask An IP

Learning & Communication Series

Program 1 Highlights

June 9th, 2021 – August 11th, 2021

10-Week Program

Discussing:

- Core infection prevention practices
- Standard precautions
- Enhanced standard precautions
- Transmission based precautions

Ranging from 100 to 160

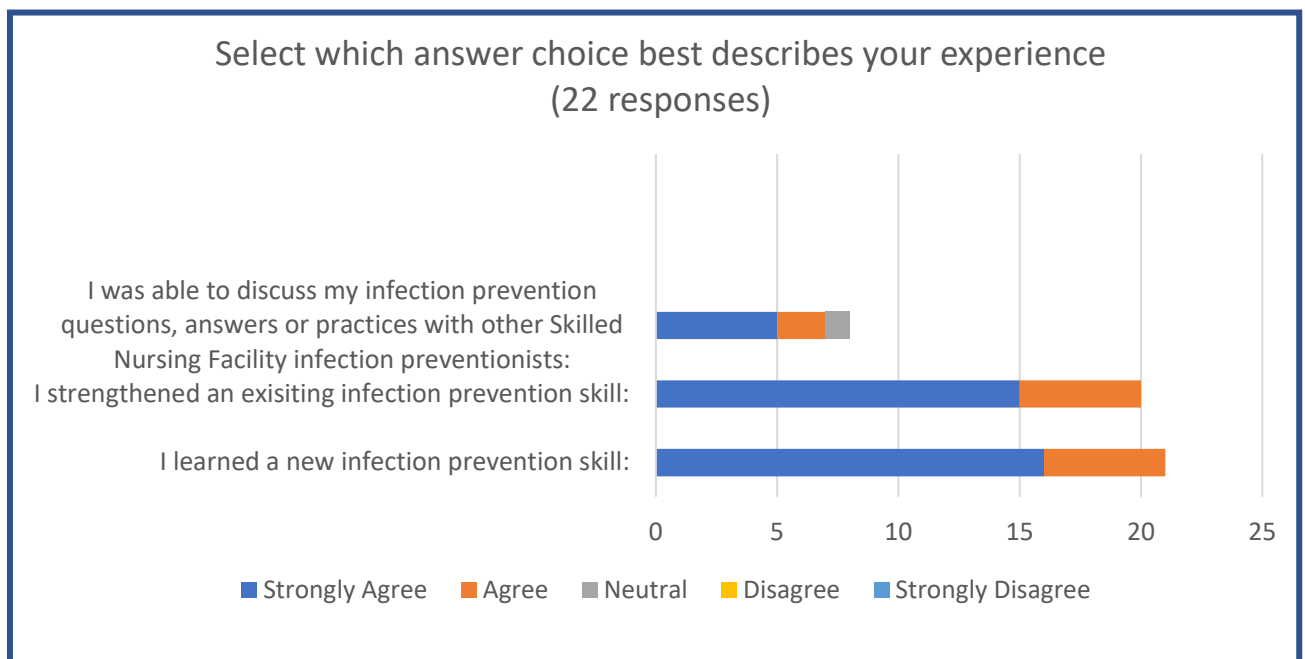

participants:

- SNF IPs
- SNF staff
- LAC DPH IPs
- LAC DPH Subject Matter Experts (physicians and epidemiologists)

Additional program elements:

- Office hours
- Open and guided Q&A
- Case studies
- IP Resources
- Post-program feedback survey

SNF IP Feedback:

What SNF IPs have to say:

"I enjoyed listening to the webinar presentations. Communicating through chat and having questions answered. The one hour webinar is perfect! Thank you so much!"

"I enjoyed the interactions we had with other IPs from other facilities. The questions that were being asked and how I learned from the questions that were being asked."

"Continue the IP talk weekly until the pandemic is over. We need this kind of interactive webinar to get updates and additional knowledge regarding infection prevention."

Future topics:

- Antimicrobial stewardship
- Outbreak investigation
- Disease surveillance
- CAUTI prevention
- Vaccine acceptance strategies
- Professional development
- Regulatory bodies
- Cleaning and disinfection

Program 2 dates: TBD
