The Role of the Infection Preventionist

Basics of Infection Prevention
2-Day Mini-Course
November 2017
Objectives

At the end of the session the participants will be able to:

• Describe the infection prevention & control role in the acute care setting.
• Discuss relationship building as an IP
• Discuss key resources needed for Infection Prevention
What's in a Name

Infection Control Nurse
Infection Control Coordinator
Nurse Epidemiologist
Infection Professional

INFECTION PREVENTIONIST 2008

Infection Control Practitioner
Infection Control Coordinator
Infection Control Nurse
Infection Control Professional
Often times, when we need the cooperation and clear direction of those around us...

Instead of coordinated efforts...

we get...
We presume that people want to protect their patients, but they need clear direction, consultation, and support.
IPs need tools for serving in many roles and to accomplish prevention objectives.
Unique Role of the IP

“There are two pieces that are unique to what IPs and healthcare epidemiologists bring to the table: **Data*** --- knowing what is happening in your institution ***--- and the **knowledge*** of what needs to be done to prevent infections. Those are the reasons people will invite you when discussing problems related to healthcare safety ***--- because its something the others don’t know. It’s what gives us the power.”

Denise Cardo, MD, Director
CDC’s Division of Healthcare Quality Promotion
Professional Standards for IPs

• Professional Accountability
  • Acquire and maintain knowledge and skills
    – Attend educational conferences
    – Join professional organizations
      » APIC
      » SHEA
    – Participate in State and local public health events
Up-coming Education

- APIC 2018 – June 13-15; Minneapolis, MN
- SHEA – Spring Conference, April 18-20, 2018, Portland OR
- IDAC – May 5-6, Irvine
Professional Standards for IPs

• Qualifications for Infection Control Professional/IP
  • Baccalaureate preferred (nursing, microbiology, epidemiology)
  • Basic training – IP fundamentals course
  • Knowledge, experience, willingness to work hard, listen, and question
  • Online & Blogs
IP as Evaluator

• Annual Risk Assessment
• Infection Prevention Plan
• Unit rounding
  • Nursing units, OR, GI Lab, Radiology, ED, Clinics
• Perform surveillance
• Investigate suspected outbreaks
• Educate based on prevention needs/problems
IP as HAI Prevention Expert

• Use epidemiology and microbiology skills
• Analyze, interpret, and feedback surveillance data
• Frequent review of HAI surveillance findings with healthcare providers and leadership:
  • Identifies areas for prevention focus
  • Spurs new prevention efforts
• Measures progress and sustainability of prevention efforts over time
IP as HAI Prevention Expert (con’t)

- Frequent review of HAI surveillance findings with healthcare providers and leadership:
  - Provides encouragement to continue efforts when prevention success occurs
  - Motivates others to look for new ways (processes, practices) to attain and sustain prevention
IP as Educator

Teach others: staff, visitors, and patients

• Evidence-based infection prevention practices

• Infection risk, prevention and control methods
  • Annual Bloodborne Pathogens and Aerosolized Transmissible Diseases (ATD) classes
  • Updates on Pandemics
    • Influenza, Pertussis, Measles
  • New Employee Orientation
  • Volunteers, Construction Workers, Students

• Community Classes

The public likes to hear what IPs have to say
IP as Consultant and Influencer

- Construction
- Floods, Fires
- Family and visitor issues
- Dietary, EVS, Lab
- Pet Therapy
- Pandemic!!!

And more...
IP as Consultant and Influencer

• Influence:
  defined as the capacity or power of persons or things to be a compelling force on or produce effects on the actions, behavior, opinions, etc., of others

• IPs have influence:
  our job is to learn how best to use it to keep patients, staff and visitors safe
IP as Collaborator

• It really is ALL about relationships – with your EVS Director, OR Supervisor, Chief Engineer, Administration, Materials Management, Lab Director, marketing staff
  • What do you learn from their expertise?
  • Where is teamwork an integral part of finding the solution to the issue at hand?
  • Respect and acknowledgment are a two-way street

• The list is endless...IPs collaborate during disasters, outbreaks, community projects – get to know people now!
IP as Liaison

- **Definition:** A person who acts as a link to form close working relationships with other people or groups

- IPs serve as link to:
  - Local public health
    - The connection to local services, resources
  - CDC-NHSN
    - For prevention guidelines and surveillance
  - Regulators
    - For requirements specific to infection prevention
  - Patients, visitors, staff, and administration

- IPs serve as an advocate for patient/elder safety
IP as Customer Service

- Who are infection prevention customers?
  - Patients
  - Family Members
  - Staff
  - Physicians
  - Visitors
  - Community
  - Public Health
  - Anyone who calls for your consultation services!
IP as Mentor and Leader

- IPs are role models and leaders, whether or not they perceive themselves as such
  - Staff watch your behaviors
  - You make decisions related to ethics and regulations
  - You are responsible for IP policies and procedures

- IPs should identify needs/desire for mentorship
  - Staff nurses interested in IP
  - Students needing a preceptor
  - Begin an IP Liaison team
• Surveillance
• Epidemiology & Statistics
• Infectious Diseases
• Microbiology
• Disinfection/Sterilization
• Employee Health
• Principles of Adult Learning
• Outbreak investigations/communicable disease reporting
• Product Evaluation
• Policies & procedures

• More care is given in more settings across continuum
• Quality Improvement/prevention of other adverse events
• Waste Management
• Construction
• Bioterrorism Planning
• Pandemic Planning
• Technology – both @ bedside and informatics
• Mandatory reporting
• Other legislative issues

WE ARE IPs!
