

I MADE A COMMITMENT to improving antibiotic use

1. I will only prescribe antibiotics when they are needed to treat or prevent infection.

2. If I do not prescribe antibiotics, I will provide recommendations for other ways to help patients feel better.

3. If I prescribe antibiotics, I will ensure patients know how to take them the right way and alert patients of possible side effects.

4. I will gladly answer questions about using antibiotics as part of a patient's full course of treatment.
