Ways You Can Increase Flu Vaccination Among Healthcare Workers

The Los Angeles County Health Officer Order requires all healthcare staff to be vaccinated against flu. If declined, staff must wear a mask throughout flu season.

Post the Health Officer Order
Use posters to remind staff of Health Officer Order, and enforce the masking rule.

Provide stickers for employee badges
Provide stickers for the IDs of those that get vaccinated.

Give incentives
Reward staff and units that achieve high vaccination rates.

Set the example
Hold vaccination clinics, and have top administrators show their support and set the example.

Use technology
Post reminders as screen savers and on facility webpages.
