

## California Physical Education Program Model Action Plan (MAP)

This model action plan is a statement of the specific steps that need to be taken to achieve compliance with California physical education codes and regulations; federal and California civil rights and health laws that guarantee equal access to publicly funded programs and activities including physical education; and recommended practices the district chooses to adopt. This includes the timeframe, action required, roles and responsibilities, implementation status and current progress towards each action item. This model action plan is part two in a four-step process.

Step [1] is completion of the *California Physical Education Program Self-Assessment Checklist*. The checklist is a compilation of California codes and regulations, national best practices, and local recommendations pertaining to physical education. Designed for school district staff to conduct a comprehensive assessment of the district's physical education programs and policies, the checklist can help schools establish a baseline and serve as a basis for the development of an action plan. Step [2] is creation of a districtwide Physical Education Action Plan to address gaps in program compliance, make progress towards recommended practices and maintain current successes.

Step [3] is adoption of a School Board Physical Education Policy to establish the district's long-term course of action and support the USDA Local School Wellness Policy requirement for physical education.

Step [4] is adoption of a School Board Physical Education Resolution to provide documentation that a school district has prioritized physical education, and that a compliance action plan is in place.

The corresponding policy resource documents to these steps including the self-assessment checklist, model action plan, model board policy and model board resolution, can be found on the Los Angeles County Department of Public Health's, [Cardiovascular Health website](#). Districts that complete the four-step process may contribute to reducing disparities among physical education programs throughout the state.

### Physical Education Disparities and Compliance

A 2012 peer-reviewed study documents that students of color and low income students are disproportionately denied physical education in California public schools.<sup>1</sup> Additionally, the 2003 *California Health Interview Survey*<sup>2</sup> and the 2010 *Shape of the Nation Report-Status of Physical Education in the United States*<sup>3</sup> indicate that physical education quantity and quality are particularly deficient for less affluent students and those in racial and ethnic groups who are at high risk for being overweight and/or obese. Nearly 50% of California public school students in grade 5 and over 50% of public school students in grades 7 and 9 do not meet 5 of 6 standards on the state-required physical performance fitness test (FITNESSGRAM®), and there are large disparities by race and ethnicity.<sup>4</sup> Title VI of the Civil Rights Act of 1964 and California Government Code Section 11135 and their regulations prohibit intentional discrimination based on race, color or national origin and prohibit unjustified discriminatory impacts, even if unintentional, on minority students that attend schools that receive federal or state financial assistance. Students can be "unintentionally" discriminated against if they do not receive physical education instruction. See the decision by the federal court of appeals for the Ninth Circuit in *Larry P. v. Riles* (9th Cir. 1984), 793 F.2d 969 (intentional discrimination, and unjustified discriminatory impacts regardless of intent, are prohibited in public education under Title VI of the Civil Rights Act of 1964 and its regulations).

The California Court of Appeal has held that physical education minutes are mandatory requirements that must be complied with under the state law that enacts them. In *Doe v. Albany Unified School District*, 190 Cal.App.4th 668 (2010), the Court ruled that (1) state law, Education Code section 51210, imposes a mandatory duty on school districts to provide a minimum of 200 physical education minutes every 10 days in elementary schools, excluding lunch or recess; and (2) that parents could seek enforcement of the statute. Based on similar statutory language and the reasoning of the Court, minutes requirements in middle and high school, credentialing requirements, and training requirements are also mandatory.

## How to Use this Document

To make the process of completing this action plan as smooth and seamless as possible:

- (1) Fully complete the [California Physical Education Self-Assessment Checklist](#) and reference your completed checklist when creating the action plan;
- (2) Familiarize yourself with the model action plan by reviewing the headers and background information. The language above each action item table is taken directly from the *California Physical Education Self-Assessment Checklist*;
- (3) Number each action item. There may be several action items for each Physical Education Checklist Item. In this case, simply copy and paste an additional blank action item table in the appropriate section;
- (4) Describe the specific action step planned to maintain or improve compliance (Example: By April 15, 2016, provide five hours of Physical Education Professional Development for all 115 Kindergarten teachers in the District);
- (5) Designate the person(s) or unit responsible for implementing the action step (Example: Staff Development Unit);
- (6) Indicate a start date to begin the action item and an end date of when it will be completed;
- (7) Indicate the implementation status of the checklist item at baseline. Simply mark the same box as was marked on the *California Physical Education Checklist* and the date you completed the checklist;
- (8) Note the current status and progress made on the action item and specify the date. If the action step is to maintain implementation, select "in progress, on-schedule"; and
- (9) Utilize the comments section for any additional notes or actions required. (Example: Requires acquisition of PE curriculum and equipment; need to convene staff to select grade-appropriate curriculum. Also need to budget general funds.)

## Disclaimers

California is a local control state that gives Local Education Agencies authority to make decisions when the code regulation is allowable. California Codes of Regulation (CCR) and Education Code (EC) are not always provided in their entirety. Refer to the citation in brackets [ ] for the complete text.

## LEGEND

**Mandatory (M)** refers to items that are required by law (Education Code, Civil Rights Act, Government Code, etc.)

**Allowed (A)** refers to items which are allowed by law, but are optional (left to the discretion of the Local School Board)

**Recommended Policy/Practice (RP)** refers to items that are not required or referenced by law, but are considered exemplary or best practice.

Verbatim California Code of Regulations, Education Code, California State Board of Education, and California Standards for the Teaching Profession language are in *italics*

**Action Item Color Coding Key:**

- Green:** Action Item is fully implemented at baseline assessment, continue implementation.
- Yellow:** Action Item is based on a recommended best practice (RP), and is not yet fully implemented.
- Red:** Action Item is based on law or mandated regulation (M), and is not yet fully implemented.

**1 Physical Education Course Requirements:**

The Legislature hereby finds and declares that the physical fitness and motor development of children in the public elementary schools is of equal importance to that of other elements of the curriculum. [EC §51210.2 (a)] The State Department of Education shall..... encourage school districts...to provide quality physical education that develops the knowledge, attitudes, skills, behavior and motivation needed to be physically active and fit for life.... [EC §33350] Most children lead inactive lives... It is, therefore, the intent of the Legislature that all children shall have access to a high-quality, comprehensive, and developmentally appropriate physical education program on a regular basis. [EC §51210.1 (a)(1)(E), and (a)(2)] Grades 1-12. Physical education course of study must include an emphasis upon those physical activities that may be conducive to health and vigor of mind and body. [EC §51210 (g), EC §51220 (d)]

- 1 a. Kindergarten shall have physical education. [CA Framework adopted by California State Board of Education - CSBE 2008 to address K standards] (RP)

Comments				

- 2 f. When a middle or high school is on an alternate or term block schedule, a physical education waiver for the mandated instructional minutes must be obtained from the California State Board of Education (CSBE) by addressing the following six requirements. [\(CSBE 99-03\)](#) *Term block schedules tend to deprive students of physical education for many weeks, typically a trimester or a semester. There is no evidence that term block scheduling is superior to alternate day block scheduling in relation to student achievement. Yet evidence does exist that inactivity for a term can be detrimental to the health of students. Middle/Junior High School Waiver Criteria (Block Schedule)*
- The State Board of Education will consider waivers for those middle schools/junior high schools that share a campus and/or physical education facilities with a neighboring secondary school operating on a block schedule. Middle school/junior high schools must also meet the secondary school waiver criteria #1-4 and #6 listed below. (RP)

Secondary School Waiver Criteria (must meet all criteria)

1. Students are in physical education a minimum of 18 weeks in 70-90 minute daily periods during the regular school year.
2. The district describes a method by which it will monitor students' maintenance of a personal exercise program during the weeks the student is not participating in a physical education course.
3. The district provides evidence that alternate day scheduling for physical education rather than alternate term scheduling has been thoroughly investigated. Reasons why alternate day scheduling will not work are clearly explained.
4. The district provides information that shows the physical education program is aligned with the Physical Education Framework (provides a sequential, articulated, age-appropriate program).
5. The district provides information that shows the physical education program (in a senior or four-year high school) is in compliance with [California Code of Regulations, Title 5, Article 3.1, Section 10060](#).
6. Students are prepared for and participate in the physical performance testing as specified in the Education Code.

Action Item 9				
Number	Description			Responsible Unit
2f.	Continue to make sure that if a middle or high school is on an alternate or term block schedule, a physical education waiver for the mandated instructional minutes is obtained from the CSBE by addressing the above six requirements.			Executive Director

Comments				

3 California Physical Education Model Content Standards:

The Physical Education Model Content Standards for California Public Schools, Kindergarten through Grade 12, were adopted by the California State Board of Education in 2005 and are specified as being exemplary and not mandatory with the exception of references to statutes, regulations, and court decisions. [EC § 33308.5 (a)] These standards address the eight physical education content areas in a developmental sequence for grades K-12. [5 CCR § 10060] Compliance with Federal Program Monitoring (FPM) requires the evaluation of every high school student’s individual progress and the measure of his or her attainment of the goals specified in each area of instruction as listed in subsection (a) of 5 CCR §10060. (CDE Physical Education Federal Program Monitoring Instrument Item Report 2013-14) Nationally, fewer than 29% of districts required or recommended one particular physical education curriculum at any school level. Districts could benefit from the use of the PECAT to analyze and revise curriculum or develop new curriculum. [CDC, Results from the School Health Policies and Practices Study 2012]

- 3 a. The District shall adopt physical education curriculum (commercial or district written) that includes developmentally appropriate content, assessment, and instruction aligned with the [Physical Education Model Content Standards for California Public Schools, K-12](#), and the [Physical Education Framework for California Public Schools, K-12, 2008](#). (RP)

**5 High School Physical Education Courses:**

The District shall develop a high school course of study for physical education courses that is aligned with Federal requirements, Education Code, State Regulations, and the Physical Education Model Content Standards for California Public Schools K-12. The course of study will ensure that all students have access to the eight required content areas for high school physical education. [EC §33352, 5 CCR §10060] The District's course of study will include physical education courses for each of the following:

- 5 a. Each school district shall appraise the quality of the physical education program in each senior or four-year high school for the district by the following criteria [5 CCR §10060]:

(a) The course of the study provides for instruction in a developmental sequence in each of the following areas:

1. Effects of physical activity upon dynamic health (M)

**6 Moderate to Vigorous Physical Activity:**

The District’s physical education program shall provide high quality instruction that includes:

- 6 a. Each course includes activities of a vigorous nature adapted to individual capacities, and designed to permit maximum development of each individual pupil. [5 CCR §10060 (d)] Moderate physical activity refers to activities equivalent in intensity to brisk walking or bicycling. Vigorous physical activity produces large increases in breathing or heart rate, such as jogging, aerobic dance or bicycling uphill. [California School Boards Association, Physical Education Model Content Standards for California Public Schools, K-12, Standard 3 for grades K-8/Standard 2 for grades 9-12] (M)

Action Item 50				
Number	Description			Responsible Unit
6a.	Develop strategies to reduce class size and address facilities barriers to improve development of each individual pupil and engagement in vigorous physical activity.			Executive Director
Timeline		Implementation Status at Baseline 2/20/2015		Status as of 3/10/2015

**20 Independent Study:**

Physical education is required for all students except those provided with temporary or permanent exemptions as identified above. [EC §51210, EC §51220, EC §51222] However, on occasion, a secondary school will have a student whose educational needs in physical education extend far beyond that of his or her peers. The talent or ability is being extended or perfected in an off-campus, non-school related environment under supervision of a professional competent to assist the student towards maximum achievement. Independent study may not be used as a replacement curriculum.

- 20 a. A pupil shall complete the following while in grades 9 to 12, inclusive, in order to receive a diploma of graduation from high school: [\[EC §51225.3 \(a\)\]](#)

23 Physical Education Program for Individuals with Disabilities:

All children, unless specifically excused or exempt, are required to receive instruction in physical education program [EC §51222 and EC §51241]. The Individuals with Disabilities Education Improvement Act of 2004 (IDEA), and federal regulations define "special education" as specially designed instruction to meet the unique needs of a child with a disability, including instruction in the classroom and instruction in physical education [20 USC §1401(29), 34 CFR §300.39]. California Code of Regulations, 5 CCR §3051.5, provides: *Adapted physical education is for individuals with exceptional needs who require developmental or corrective instruction and who are precluded from participation in the activities of the general physical education program, modified general physical education program, or in a specially designed physical education program in a special class. Consultative services may be provided to pupils, parents, teachers, or other school personnel for the purpose of identifying supplementary aids and services or modifications necessary for successful participation in the regular physical education program or specially designed physical education programs.*

- 23 a. All special education, physical education should be provided in such a manner that promotes maximum interaction between children with disabilities and their non-disabled peers. [20 USC §1412 (a)(5)(A), 34 CFR §300.114, EC §56342 (b)] (M)
