

Los Angeles County TelePrEP

TelePrEP is a new program in Los Angeles County that assists you in taking Pre-exposure prophylaxis (PrEP) while remaining protected against HIV!

PrEP reduces the risk of getting HIV from sex by about 99% and injection drug use by about 74%.

PrEP is most effective when taken every day and combined with other prevention methods like condom use

Stick to your daily medication routine to maximize its protective benefits!

Here are your Next Steps!

Step 1: Meet with a Navigator

Our navigators will ask you about your well-being and provide you with an overview of the program.

Step 2: Meet with one of our telehealth providers

Meet with our Telehealth provider about 2 weeks later to receive a refill.

Step 3: Go for your quarterly labs

Lab tests will be scheduled by your navigator on a regular basis (quarterly).

Step 4: Get more refills

Meet with providers on a quarterly basis to receive more refills!
