

Figure 1: Number of patients screened, agreed to participate, and assessed by contract year

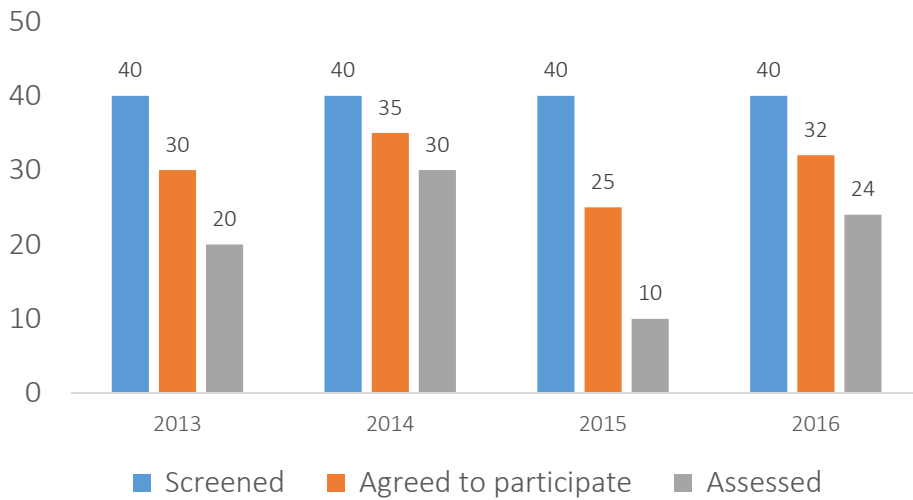

Figure 2: Number of patients served by contract year

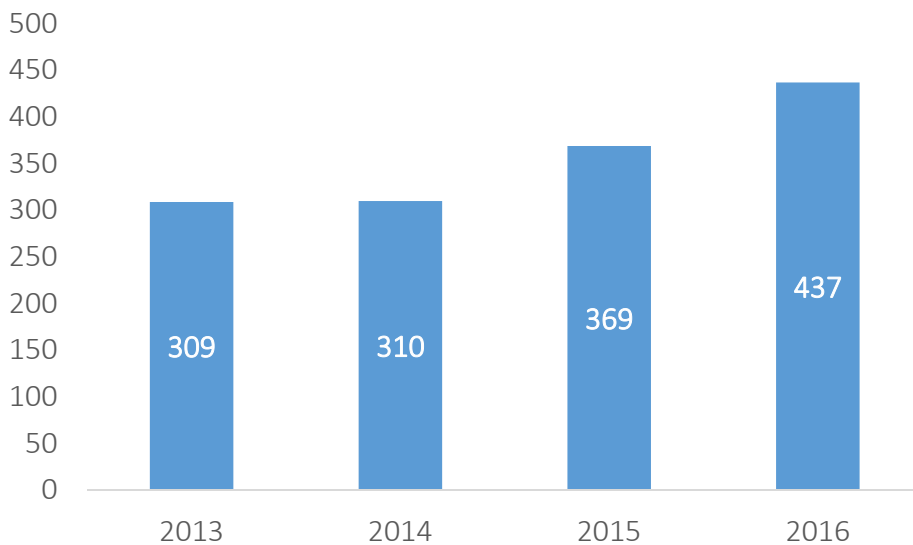

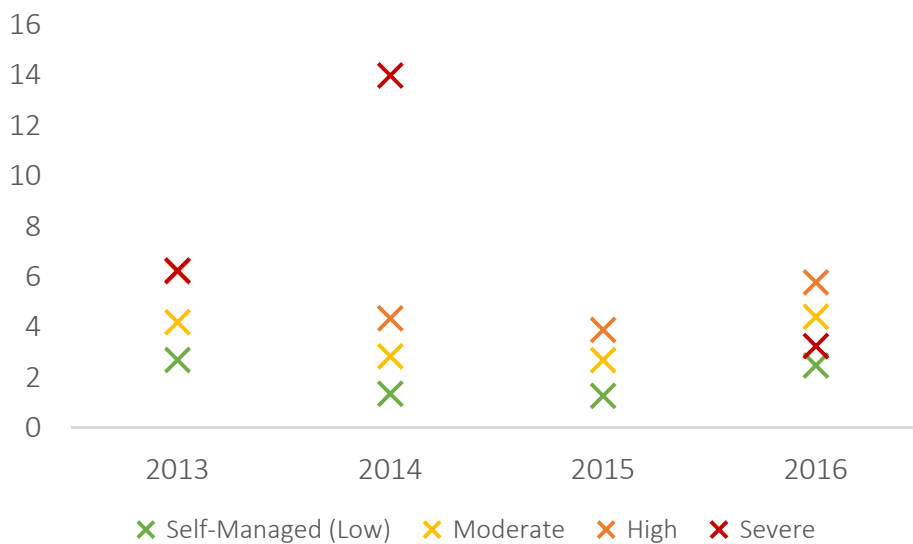

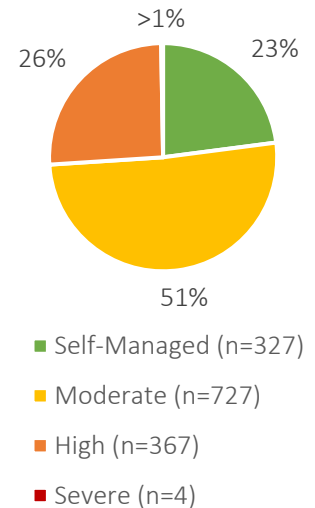

Figure 3: MCC service hours per patient by acuity level

Characteristic	n	%
Race/Ethnicity		
African American/Black	239	16.8%
Hispanic/Latino	639	44.8%
White	452	31.7%
Other	95	6.7%
Gender		
Male	1374	96.4%
Female	17	1.2%
Transgender	34	2.4%
Age		
14-24	195	13.7%
25-39	698	49.0%
40-59	495	34.7%
60 and over	37	2.6%
Poverty		
At or below FPL	913	64.1%
Above FPL	512	35.9%
Insurance Status		
Uninsured	998	70.0%
Insured	427	30.0%
Housing Status		
Homeless	110	7.7%
Temporary	187	13.1%
Stable	1128	79.2%

Figure 4: Percent of patients served by acuity level

Performance Measures (PM)

Figures 5-8: Provision of brief interventions among MCC patients with identified need by contract year

Figure 5: Engagement in care brief intervention

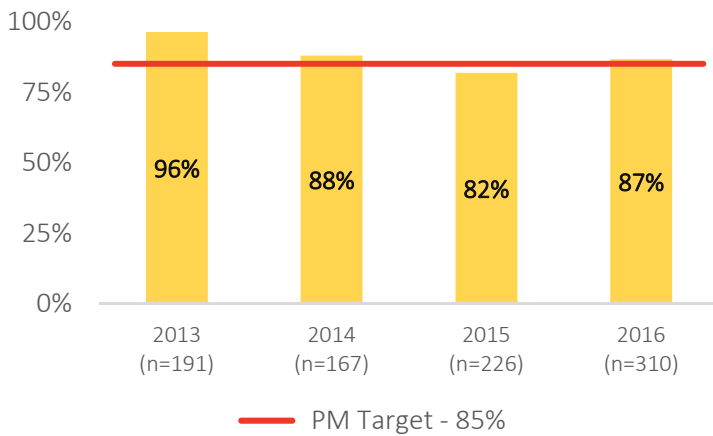

Figure 6: ART adherence brief intervention

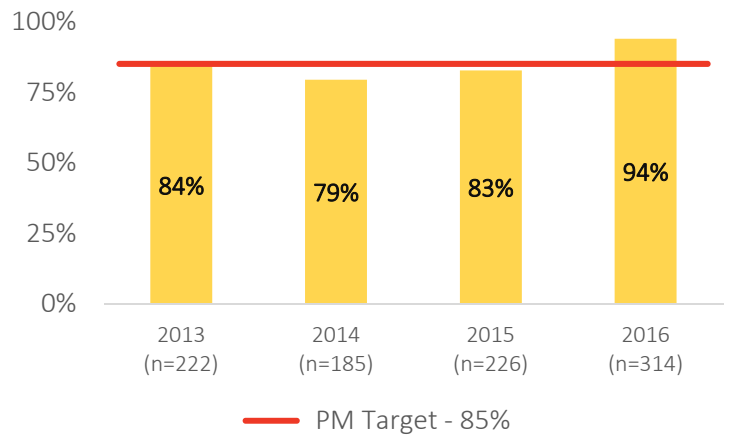

Figure 7: Behavioral health brief intervention

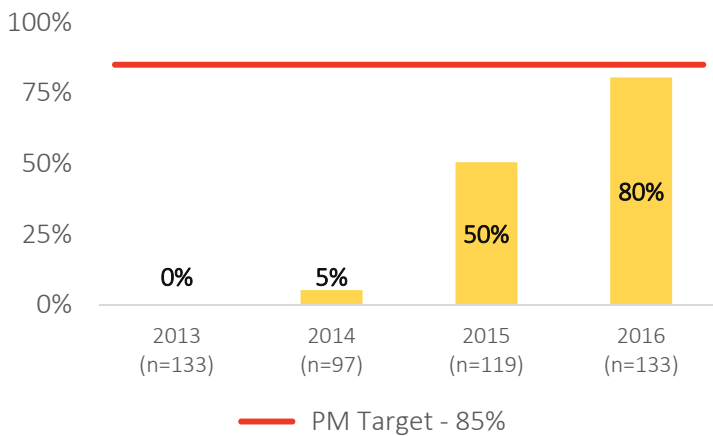

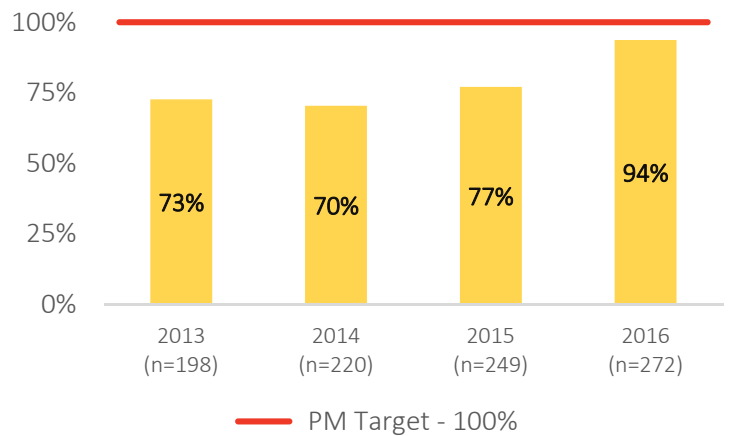

Figure 8: Risk reduction brief intervention

Note: The number below each year represents the number of MCC patients who demonstrated need for that particular intervention.

Figure 9: Retention in care at 12 months among patients in MCC by contract year

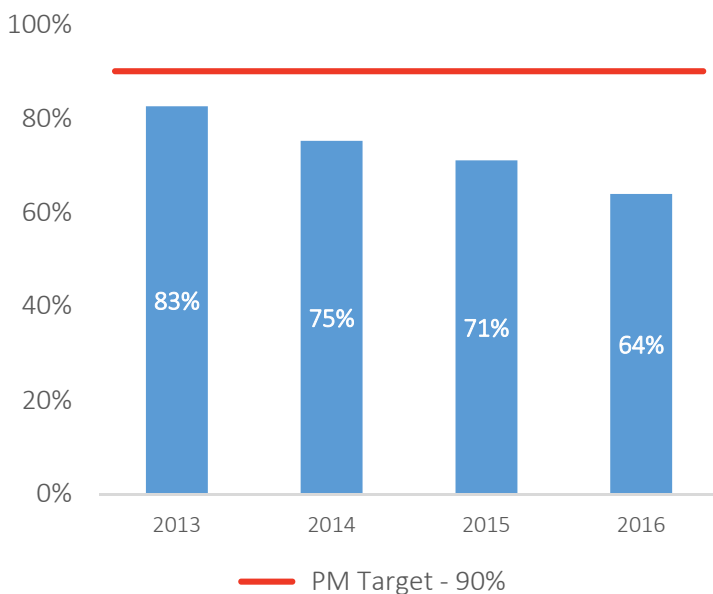

Figure 10: Viral suppression at 12 months among patients in MCC by contract year
