Division of HIV and STD Programs
Post-Exposure Prophylaxis and Pre-Exposure Prophylaxis
Technical Assistance Request**

The Division of HIV and STD Programs (DHSP) fully supports the use of HIV biomedical interventions, post-exposure prophylaxis (PEP) and pre-exposure prophylaxis (PrEP), as critical components of comprehensive medical services for individuals at high risk for HIV.

DHSP is interested in identifying providers who would like to offer PEP and/or PrEP to their clients but who may need training and/or technical assistance to better integrate these services into their clinical practice.

PEP/PrEP training and technical assistance for your practice (check all possibilities):

Assistance locating appropriate PEP/PrEP resources

Attend training about the provision of PEP/PrEP services

A phone consultation by DHSP's Medical Director

A site visit with DHSP staff to assist you with the implementation of PEP/PrEP services
