

PUBLIC HEALTH WEEK

Changing Our Future Together

DAY 4:

Emergency Preparedness “Hands Only” CPR Training

Various Dates & Locations

Emergency response teams may be delayed after a disaster. That’s why you and those close to you should learn about each other’s special needs and work together to build skills to respond to emergencies. Doing so can save lives during a crisis. These LA County statistics highlight the need for us to support each other during an emergency:

36% of LA County adults report they don’t get the social and emotional support they need.

15% of LA County children ages 0-17 years have special health care needs.

19% of LA County adults provided care or help to another adult living with a long-term illness or disability.

The American Heart Association notes that most people who face cardiac arrest (a sudden stop in heart function) at home, work, or in a public place die because they don’t get CPR right away from someone on site. CPR can double or even triple a person’s chance of survival, especially if done in the first few minutes of a cardiac arrest.

Come celebrate Public Health Week by learning “Hands Only” CPR from our staff. It can help save lives!

April 3, 2018

Venice City Library, 1:30-3:30pm

501 S. Venice Blvd., Venice, CA 90291

April 4, 2018

East Los Angeles County Library, 1:30-4:30pm
