Currently, the demand for H1N1 vaccine is outweighing local and national supply. That's why some Public Health vaccine clinics may reach capacity earlier than expected and may need to close earlier than the posted hours. If you are NOT in an H1N1 Priority Group, please wait to get vaccinated until vaccine supplies increase. More H1N1 vaccine will be available in the next several days and weeks at some chain pharmacies, private health care providers, and community clinics.
