- [Preview](#) the inaugural digital May-June issue of *Rx for Prevention*

*Rx for Prevention* focuses on interventions in clinical medicine, community health, and health policy that are vital to the health of our communities. Topics include:

- Updates and supplemental information to LAHAN notifications
- Chronic disease and injury prevention
- Substance abuse
- STDs, TB, and other communicable diseases
- Health policy

Articles provide clear steps to apply to clinical practice or to action at the community or policy level.
