

CAHAN: State Health Officer Order
Revision of Mandatory Reporting of COVID-19 Results
February 11, 2022

The California State Health Officer issued an order yesterday that temporarily modifies certain COVID-19 reporting requirements for health care providers and laboratories. Effective immediately, healthcare providers no longer need to report COVID-19 cases with the exception of COVID-19-related hospitalization and/or death. Health care providers conducting point of care testing must still report test results consistent with the requirements for laboratories. The LAC DPH COVID-19 [Provider and Laboratory Reporting Guidelines](#) have been updated to reflect these changes.
