

Now Hiring: Resource Liaisons for Help Me Grow LA!

Healthcare Staffing Professionals has an **immediate** need for a Resource Liaison for Help Me Grow Los Angeles (HMG LA). HMG LA is a collaboration between First 5 LA and the Los Angeles County, Department of Public Health to help families get support and services for their child's developmental needs.

What does a Resource Liaison do?

- Educates parents, caregivers, health care providers, and service agencies about HMG LA services;
- Helps parents and caregivers navigate through systems and programs that provide identification of developmental delays and referral to services that address their concerns and prepares them to interact with these agencies;
- Connects parents and caregivers to community resources in their neighborhood;
- Coordinates linkages and makes sure families get the right services for their needs.

A Resource Liaison has:

- At least six months of full-time experience working with the public or with community groups performing duties such as interviewing clients or patients concerning health or social service matters, answering questions, and providing information about health, mental health, and social services. Work performed part-time in the specified capacities will be prorated on a month-for-month basis;
- Has computer, data entry, recordkeeping, and/or word processing skills;
- Knowledge of internet use, especially web-based search engines or web-based searchable databases.

Desirable Qualifications:

- Knowledge of early childhood development;
- Lived experience in working with children with developmental and/or behavioral delays;
- Experience in a government or non-profit entity that provides services to families;
- Experience providing customer service;
- A passion for helping children and families;
- Bilingual in English and Spanish or other threshold languages.
