

# Strategic Plan Revisions

## Strategies & Work Plans

August 15, 2013

# Outline

- Review & Approve Workgroup Strategies
- Review & Discuss Work Plans
- Review Next Steps

## **GOAL 1: To increase access to and improve quality of health care.**

**STRATEGY 1: Utilize data and engage with partners to identify high-need providers for asthma education, and collaborate with other organizations that are already conducting asthma provider trainings to expand training opportunities for high-need providers in LA County.**

OBJECTIVE(S) SUPPORTED:

- 1.1 Advocate for professional development opportunities for asthma health care providers and community health workers/promotores de salud.
- 1.2 Identify and promote implementation of guidelines and best practices for asthma management.
- 1.3 Advocate for coverage, reimbursement, and on-going quality improvement for comprehensive asthma care.
- 1.4 Promote access to high quality asthma care for underserved populations in Los Angeles County and advocate for strategies to reduce barriers to care.

**STRATEGY 2: Collaborate with the ACLAC Asthma Friendly Schools Workgroup to develop one comprehensive LA County asthma action plan (AAP) form and attain endorsement by the LA County Office of Education (LACOE).**

OBJECTIVE(S) SUPPORTED:

- 1.5 Utilize available research and data to identify populations with disproportionate asthma burden and promote asthma education, prevention of exacerbations, and control.
- 1.6 Promote integrated asthma support services and encourage communication and collaboration among patients, families, schools, and health care providers.

**STRATEGY 3: Contact County and community clinics to work on implementing asthma action plans (AAP) for all pediatric patients with asthma.**

OBJECTIVE(S) SUPPORTED:

- 1.2 Identify and promote implementation of guidelines and best practices for asthma management.
- 1.6 Promote integrated asthma support services and encourage communication and collaboration among patients, families, schools, and health care providers.

## **GOAL 2: To improve asthma awareness and management in schools**

### **STRATEGY 1: Inform school staff about current policies and protocols and gain their support.**

#### **OBJECTIVE(S) SUPPORTED:**

- 2.1 Support the development and implementation of comprehensive and coordinated asthma policies and procedures in school districts to ensure the health and well-being of students with asthma.
- 2.2 Promote good air quality through education in the reduction of asthma triggers to teachers, nurses, staff and students to improve air quality in schools.
- 2.4 Encourage participation in physical education and appropriate physical activity for students with asthma.

### **STRATEGY 2: Engage the LA County Office of Education (LACOE) to present positive asthma management strategies for school districts.**

#### **OBJECTIVE(S) SUPPORTED:**

- 2.1 Support the development and implementation of comprehensive and coordinated asthma policies and procedures in school districts to ensure the health and well-being of students with asthma.
- 2.3 Advocate for the utilization of Asthma Action Plans (AAP) in schools for students with asthma.

### **STRATEGY 3: Encourage local health care providers to provide an AAP to all of their pediatric asthma patients.**

#### **OBJECTIVE(S) SUPPORTED:**

- 2.3 Advocate for the utilization of Asthma Action Plans (AAP) in schools for students with asthma.
- 2.5 Promote collaboration between schools and health care providers to improve the health of students with asthma.

### **GOAL 3: To improve indoor air quality in homes.**

**STRATEGY 1: Develop recommendations for the improvement of housing inspections and develop and distribute a resource guide for tenants seeking assistance and services for indoor air quality-related housing issues.**

OBJECTIVE(S) SUPPORTED:

3.1 Advocate for improved code enforcement by City and County housing inspectors.

3.2 Educate stakeholders about health and safety housing standards and the legal consequences of slum housing.

3.3 Utilize available research and data to promote awareness of the association between health and substandard housing.

3.4 Promote collaboration among tenant rights groups, health care providers, community health workers/promotores de salud, and code enforcement officials.

**STRATEGY 2: Promote integrated pest management (IPM) as a viable healthy housing strategy that improves occupant health and reduces maintenance costs.**

OBJECTIVE(S) SUPPORTED:

3.3 Utilize available research and data to promote awareness of the association between health and substandard housing.

3.5 Advocate for the use of integrated pest management (IPM) in home environments.

**STRATEGY 3: Educate tenants, landlords & other key stakeholders on strategies to reduce smoking and second-hand smoke in multi-family housing while protecting all parties involved in the issue.**

3.2 Educate stakeholders about health and safety housing standards and the legal consequences of slum housing.

**STRATEGY 4: Increase the size of meetings by identifying, recruiting, and engaging stakeholders for the ACLAC and the IAQ workgroup.**

CCO 3 Outreach to new and former Coalition members and encourage participation in the Coalition, including the Workgroup meetings.

## **GOAL 4: To improve outdoor air quality.**

### **Strategy 1: Respond to requests to sign on to campaigns, send letters of support and offer testimony for policies related to outdoor air quality and asthma.**

#### **OBJECTIVE(S) SUPPORTED:**

- 4.1 Promote policies and community plans that improve conditions for people with asthma.
- 4.2 Advocate for reducing air pollution from sources such as “goods movement” industries, stationary industries, and transportation.
- 4.3 Promote the elimination of disproportionate exposure to outdoor air pollution impacting vulnerable groups or communities.
- 4.4 Advocate for reducing smoking rates and decreasing exposure to secondhand smoke.

### **Strategy 2: Gather and disseminate information and resources about current outdoor air quality-related policies and plans to Coalition members and other stakeholders.**

#### **OBJECTIVE(S) SUPPORTED:**

- 4.1 Promote policies and community plans that improve conditions for people with asthma.
- 4.4 Advocate for reducing smoking rates and decreasing exposure to secondhand smoke.

### **Strategy 3: Coordinate meetings with legislators for Coalition members to educate them on the Coalition, the problem of asthma in their specific districts, and policies that the ACLAC is currently supporting.**

#### **OBJECTIVE(S) SUPPORTED:**

- 4.1 Promote policies and community plans that improve conditions for people with asthma.
- 4.2 Advocate for reducing air pollution from sources such as “goods movement” industries, stationary industries, and transportation.
- 4.3 Promote the elimination of disproportionate exposure to outdoor air pollution impacting vulnerable groups or communities.
- 4.4 Advocate for reducing smoking rates and decreasing exposure to secondhand smoke.

# Creating a Work Plan

1. List the objectives that the strategy supports.
2. Determine the key results (deliverables) for each strategy.
3. List the corresponding objective(s) from the Strategic Plan for Asthma in California.
4. For each strategy, list the major activities in chronological order.
5. For each key activity, identify the person(s) responsible, the time frame, and the due date.
6. Update the work plan periodically to indicate the progress or completion of each activity.

**\*Each Workgroup will create only one work plan for each ACLAC fiscal year (April 2013 – April 2014). Each work plan may or may not include all of the group's strategies.**

*Keep in mind...you do not need to address all of your objectives in your Year 1 work plan. You have 5 years total to address all of your objectives, so be realistic with your activities.*

# Work Plan Template

## WORK PLAN FOR THE ASTHMA COALITION OF LOS ANGELES COUNTY OUTDOOR ENVIRONMENT WORKGROUP 2013-2014

**GOAL 4:** *To improve outdoor air quality.*
