

Workgroups

The Asthma Coalition of Los Angeles County (ACLAC) has four Workgroups that focus on different asthma-related topic areas. The Workgroups conduct activities in support of the Coalition's goals and objectives.

Each Workgroup is led by one or two Co-Chairs. The Co-Chairs also serve on the Coalition's Steering Committee, which provides leadership and direction to the ACLAC.

Our mission is to be a collective voice for policy and systems change to prevent, minimize and manage the burden of asthma

More Information

To learn more or join an ACLAC Workgroup, contact the following Co-Chairs:

Health Care, Clinical

Scott Takahashi
rvinetz@pol.net

Asthma Friendly Schools

OPEN POSITION
Loretta Worthington
worthington@ph.lacounty.gov

Indoor Environment

Diego Emistica
Diego@esperanzacommunityhousing.org

Outdoor Environment

Ashley Kissinger
ashley@esperanzacommunityhousing.org

The four ACLAC Workgroups include Health Care, Clinical; Asthma Friendly Schools; Indoor Environment and; Outdoor Environment. The Workgroups meet either in person or via teleconference at least bi-monthly, then report back to the Coalition at the general ACLAC meetings on current activities and progress.

The Workgroups are an important component of the Coalition, and members have the special opportunity of contributing their input and expertise to advance the ACLAC mission. Thanks to the efforts and dedication of the Workgroup members, the Coalition is able to be a collective and powerful voice for policy and systems change in Los Angeles County.
