**COVID-19 VACCINE SCHEDULES**
For adults age 18+

---

**Pfizer COVID-19 Vaccine**

- **Primary Series**
  - 21 days
  - Pfizer Dose 1
  - Pfizer Dose 2

- **Booster Dose**
  - At least 5 months
  - Any COVID-19 vaccine (Pfizer or Moderna* preferred).

**Moderna COVID-19 Vaccine**

- **Primary Series**
  - 28 days
  - Moderna Dose 1
  - Moderna Dose 2

- **Booster Dose**
  - At least 5 months
  - Any COVID-19 vaccine (Pfizer or Moderna* preferred).

**Johnson & Johnson (J&J) COVID-19 Vaccine**

- **Primary Series**
  - At least 2 months
  - J&J Dose 1

- **Booster Dose**
  - Any COVID-19 vaccine (Pfizer or Moderna* preferred)

---

- Pfizer and Moderna (COVID-19 mRNA vaccines) are preferred over the J&J vaccine for all doses. You may get J&J in some situations.
- If you have COVID-19, wait until you have recovered from your illness (if you had symptoms) and your isolation period is over to get your COVID-19 vaccine dose.
- For more information, see Which vaccines do I need? - age 18+ on the How To Get Vaccinated webpage.

*Moderna doses vary. The booster dose is a half dose. The primary series is a full dose.*

See page 3 for vaccine schedules for people with weak immune systems.
See page 4 for people fully vax with non-FDA authorized/approved schedules.
COVID-19 VACCINE SCHEDULES
For children ages 5-17

- The Pfizer vaccine for children 5-11 years of age has the same active ingredients as the adult vaccine but is a smaller dose (1/3rd the dose that teens and adults receive). Teens 12-17 receive the same Pfizer vaccine as adults.
- The Pfizer vaccine is the only COVID-19 vaccine that is authorized for people under age 18.
- If you have COVID-19, wait until you have recovered from your illness (if you had symptoms) and your isolation period is over to get your COVID-19 vaccine dose.
- For more information, see Which vaccines do I need? - age 5-17 on the How To Get Vaccinated webpage.

See page 3 for vaccine schedules for people with weak immune systems. See page 4 for people fully vax with non-FDA authorized/approved schedules.
COVID-19 VACCINE SCHEDULES
For people with weak immune systems

**COVID-19 VACCINE SCHEDULES**

**For people with weak immune systems**

- **People aged 5 and older with moderately or severely weakened immune systems** (e.g., blood-related cancers or certain treatments for cancer, organ transplants, and certain autoimmune conditions) should get an additional primary dose. If 12+ they should also get a booster dose. In addition, a preventive medicine called Evusheld is recommended for some people age 12+ with these conditions. See medications webpage and talk to your doctor.

- **If you have COVID-19, wait until you have recovered from your illness** (if you had symptoms) and your isolation period is over to get your COVID-19 vaccine dose.

- **For more information**, see Which vaccines do I need? - Weak immune system on the How To Get Vaccinated webpage.

*Moderna doses vary.* The booster dose is a half dose. The primary series/additional doses are the full dose.

---

**Pfizer COVID-19 Vaccine - for ages 12-17**

- **Primary Series**
  - 21 days: Pfizer Dose 1
  - 28+ days: Pfizer Dose 2
  - At least 3 months: Pfizer Dose 3

- **Booster Dose**
  - Age 12 to 17 - Pfizer vaccine only
  - Age 18+ any COVID-19 vaccine (Pfizer or Moderna* preferred).

**Pfizer COVID-19 Vaccine - for ages 5-11**

- **Primary Series**
  - 21 days: Pfizer Dose 1
  - 28+ days: Pfizer Dose 2
  - At least 3 months: Pfizer Dose 3

- **Booster Dose**
  - A booster dose is not currently recommended or authorized for this age group

**Moderna COVID-19 Vaccine - for ages 18+**

- **Primary Series**
  - 28 days: Moderna Dose 1
  - 28+ days: Moderna Dose 2
  - At least 3 months: Moderna Dose 3

- **Booster Dose**
  - Any COVID-19 vaccine (Pfizer or Moderna* preferred).

**Johnson & Johnson (J&J) COVID-19 Vaccine - for ages 18+**

- **Primary Series**
  - 28 days: J&J Dose 1
  - Pfizer or Moderna Dose 2

- **Additional Dose**
  - At least 2 months

- **Booster Dose**
  - Any COVID-19 vaccine (Pfizer or Moderna* preferred).
People who are considered **fully vaccinated** with a non-FDA approved/authorized COVID-19 vaccine primary series should follow the schedules below for booster and/or additional COVID-19 vaccine doses. See notes for definition of fully vaccinated.

### Ages 12+

**Primary Series**

- **Recommended interval**
  - Dose 1
  - Dose 2

**Booster Dose**

- At least 5 months
  - Pfizer or Moderna* vaccine
  - Age 12 to 17 - Pfizer vaccine only

### Ages 12+ with week immune systems

**Primary Series**

- **Recommended interval**
  - Dose 1
  - Dose 2

**Additional Dose**

- 28 days
  - Pfizer or Moderna vaccine
  - Age 12 to 17

**Booster Dose**

- At least 3 months
  - Pfizer or Moderna* vaccine
  - Age 12 to 17 - Pfizer vaccine only

- You are considered fully vaccinated two weeks after receiving:
  - The final dose of a vaccine series that is listed for emergency use by the World Health Organization (WHO) Currently, this includes AstraZeneca-Oxford (Vaxzevria), Serum Institute of India Pvt. Ltd (Covishield and Covovax), BIBP (Sinopharm), Sinovac (CoronaVac), Bharat Biotech International (Covaxin), and Novavax (Nuvaxovid). See the current COVID-19 WHO EUL list.
  - The final dose of a “mix-and-match” combination of FDA approved/authorized and/or WHO listed vaccines (only if the first 2 doses were at least 17 days apart).
  - All recommended “active” COVID-19 vaccines (not placebo) in a clinical vaccine trial. Note: the vaccine should be either a WHO-listed vaccine that is not FDA-approved/authorized or a vaccine for which a U.S. data and safety monitoring board or equivalent has independently confirmed efficacy.

- If you do not meet the criteria for fully vaccinated, see CDC vaccines outside the US/clinical trial Appendices E and F.
- The Pfizer and Moderna COVID-19 vaccines are the only vaccines authorized as an additional dose or booster for people who did not receive an FDA authorized/approved COVID-19 primary vaccine series.
- If you have had COVID infection, wait until you have recovered from your illness (if you had symptoms) and your isolation period is over to get your COVID-19 vaccine dose or your next dose.
- For more information see When Am I Up to Date on My COVID-19 Vaccines? section on the Once You Are Vaccinated webpage to learn more.

*Moderna booster dose is a half dose.
