

COVID-19 TREATMENT MEDICATIONS AVAILABLE NOW

CONTACT A HEALTHCARE PROVIDER

- 1** If you test positive for COVID-19, call a healthcare provider or the Public Health Center at **1-833-540-0473**.
- 2** Share any health concerns and current medication you are taking. If you qualify, get a prescription for COVID-19 medication.
- 3** Fill prescription at a pharmacy or have the medicine delivered directly to your home through Public Health Telehealth services.
- 4** Start treatment as soon as possible.

VISIT A TEST TO TREAT LOCATION

- 1** Find a participating *Test to Treat* site by calling **1-833-540-0473** or visiting ph.lacounty.gov/covidmedicines
- 2** Get tested on site or bring results from a pharmacy, healthcare provider or at-home test.
- 3** If you test positive for COVID-19, share any health concerns and current medication you are taking. If you qualify, get a prescription for COVID-19 medication.
- 4** Fill the prescription and start treatment as soon as possible.

You can also call the Public Health Center at **1-833-540-0473** and use Public Health Telehealth services if you have already tested positive and are looking for access to evaluation and treatment.

These medications are **NOT a replacement for the COVID-19 vaccine** and do **NOT change Isolation & Quarantine guidelines**. If you are eligible for the COVID-19 vaccine, you should get vaccinated as soon as possible.
