

Public Health Requirements for Temporary Use of Recreational Vehicles and Mobile Homes on Fire Affected Properties - Woolsey Fire

As you rebuild your home, a Recreational Vehicle (RV) or Mobile Home may be used for temporary housing. Prior to using temporary housing, check with your local city planning departments for requirements and approvals. This resource guide provides information on the Department of Public Health requirements for temporary housing.

WASTEWATER DISPOSAL

Land Use Program – Phone (626) 430-5380

To obtain approval from the Department of Public Health (DPH) for wastewater disposal from a Recreational Vehicle (RV) or Mobile Home, please submit the following documentation for review:

Recreational Vehicles (RVs) including, but not limited to: motorhomes, travel trailers, camping trailer fifth-wheel trailers, or truck campers.	Option 1	To utilize the existing septic system on the property, please submit the following two forms: <ol style="list-style-type: none"> 1. An “Evaluation Form for Existing Onsite Water Treatment System (OWTS) Project Reviews” completed by a Qualified Contractor (QC) of the septic system. A QC is an individual who possesses a valid California Contractor’s License as: Class A, C-42, or C-36. <p style="text-align: center;">and</p> <ol style="list-style-type: none"> 2. An “Application for Onsite Wastewater Treatment System Review”, prior DPH approval(s)* and the associated fee of \$167 to the Land Use Program. <p style="text-align: center;">Both forms are available at: http://publichealth.lacounty.gov/eh/EP/lu/lu_main.htm.</p>
	Option 2	To have the holding tank of your RV pumped on-site, please provide a copy of a current contract with a sewage pumping company that is licensed to operate in Los Angeles County.
Mobile Homes	To utilize the existing septic system on the property, please submit the following two forms: <ol style="list-style-type: none"> 1. An “Evaluation Form for Existing OWTS Project Reviews” completed by a Qualified Contractor (QC) of the septic. A QC is an individual who possesses a valid California Contractor’s License as: Class A, C-42, or C-36. <p style="text-align: center;">and</p> <ol style="list-style-type: none"> 2. An Application for Onsite Wastewater Treatment System review, prior DPH approval(s)* and the associated fee of \$167 to the Land Use Program. <p style="text-align: center;">Both forms are available at: http://publichealth.lacounty.gov/eh/EP/lu/lu_main.htm.</p>	

***Only septic systems with a prior approval from DPH or the local Building and Safety Department (B&S) are eligible for use with temporary vehicle housing. To request a copy of the prior septic system approval, contact the Land Use Program or your local Building and Safety department.**

POTABLE WATER

Drinking Water Program – Phone (626) 430-5420

To obtain approval from DPH for use of a permanent source of potable water, please submit the following documentation for review:

- If you are serviced by a water utility (e.g. Waterworks Districts, Las Virgenes Municipal Water District, etc.), please submit a copy of your water bill as part of your application to the Department of Regional Planning (DRP).

- If you receive drinking water from a water well located on your property:
 - Please submit a completed “Well Reuse Application” to the Drinking Water Program for review and approval. The “Well Reuse Application” is available at http://publichealth.lacounty.gov/eh/EP/dw/dw_main.htm.
 - After approving the “Well Reuse Application”, the Drinking Water Program will issue a Water Availability Letter for submittal with your application to DRP.

If you have extenuating circumstances or you require any further information, please contact the Land Use Program at (626) 430-5380.
