## MONKEYPOX: WHAT YOU NEED TO KNOW

Monkeypox is a contagious disease caused by the monkeypox virus. Anyone who has been in close, personal contact with someone who has monkeypox is at risk.

#### **HOW IS MONKEYPOX SPREAD?**

Monkeypox is known to spread by close, intimate and/or prolonged contact, including:

- Direct skin-to-skin contact with the rash, scabs, or body fluids from a person with monkeypox
- Contact with objects and fabrics that have been used by someone with monkeypox
- Contact with respiratory secretions from someone with monkeypox

#### This can happen from:

- · Sex and other intimate contact, including kissing, massaging, cuddling
- Sharing fabrics and objects (such as clothes, bedding, towels, sex toys) that have not been cleaned
- Prolonged, close, face-to-face contact such as talking very closely face to face for a long time (about 3 hours or more)
- Living in a house, sharing a bed, or caring for someone with monkeypox

A person with monkeypox can spread it to others from the time symptoms start until the rash has healed, scabs have fallen off, and there is a new layer of skin. This usually takes 2 to 4 weeks.

A pregnant person with monkeypox can spread the virus to their fetus through the placenta.

Monkeypox is NOT spread through casual conversations or by walking by someone who has it.

## WHAT ARE THE SYMPTOMS OF MONKEYPOX?

**KEY SYMPTOM** 

## **RASH**

The rash may:

- Look like bumps, pimples, blisters, sores, or scabs
- Be anywhere on the body including on the genitals, anus, mouth, hands, and face
- Be in just one area or may spread over the body
- Be itchy or painful (especially if inside the mouth or anus)

#### **FLU-LIKE SYMPTOMS**

**OTHER SYMPTOMS** 

Fever/chills

Exhaustion, muscle aches, and headache

Swollen lymph nodes

- Flu-like symptoms can appear 1-4 days before or after the rash starts
- Not everyone will get these symptoms

Symptoms usually start 5-21 days after exposure

#### **CONTACT YOUR DOCTOR**

if you have a new, unexplained, rash or lesions on any part of your body. This is especially important if you were exposed to someone with or suspected to have monkeypox.

# IF YOU DON'T HAVE A DOCTOR:

- Call the Public Health Call Center at 1-833-540-0473 (8am - 8:30pm daily), or
- Visit a <u>Public Health Sexual</u> <u>Health Clinic</u> near you.
