 Cottage Food Law

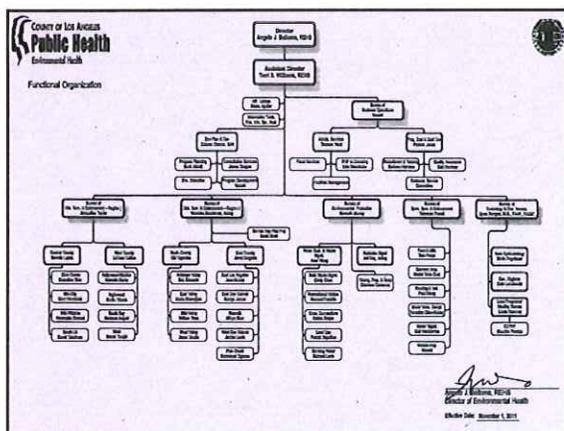

Los Angeles County Environmental Health is:

- Most recognized for its restaurant & food market grading program
- But we also monitor, inspect, evaluate, document, or provide consultation to other individuals or entities
- The largest team of Environmental Health Specialists in the nation ... a team of 700.

Currently Over 700 Strong

The County of Los Angeles consists of 85 contract cities and 124 unincorporated areas, with a total population of just over 10 million people, inhabiting over 4,000 square miles. It is considered one of the most culturally diverse counties in the nation.
