

# Antelope Valley Rehabilitation Centers

The Antelope Valley Rehabilitation Centers (AVRCs) offer affordable and comprehensive substance use disorder treatment programs for adults. We have licensed, certified, and registered professional staff that provide mental and physical health assessment, treatment, and referral services in addition to substance use disorder treatment.

## 1. What kinds of services do the AVRCs offer?

The AVRCs offer both outpatient and residential services with evidence-based practices utilized throughout the curriculum. We also provide trauma-informed treatment services, medication-assisted treatment, and individual and group counseling.

## 2. Who can access services at the AVRCs?

You have to be 18 or over to access all programs available through the AVRCs.

## 3. How do I pay for treatment at the AVRCs?

No one is turned away based on their inability to pay. We use a sliding scale to determine each person's fee.

## 4. Is there anything specific I should know about the AVRC residential program?

The residential program is gender separate and tailored to meet the needs of both genders. Wellness programs, like exercise classes and recreational activities, are offered to those in the residential program. Smoking cessation and 12-step recovery groups are also available for residents.

## 5. What happens when treatment is completed?

Our staff will assist with discharge coordination and continuum of care planning once the treatment program is completed.

## 6. How can I contact someone for admission?

For AVRC Residential services, call (661) 223-8800, Monday thru Friday, 8 am to 4:30 pm. The residential program is located at 30500 Arrastre Canyon Road, Acton, CA, 93510.

For AVRC Outpatient services, call (661) 940-3549, Monday thru Friday, 8 am to 4:30 pm. Outpatient services are located at 44900 North 60th Street West, Lancaster, CA, 93536.

*AVRC is a division of the Substance Abuse Prevention and Control program within the Los Angeles County Department of Public Health.*
