Thank you all for completing your submission

- Final review and validations of the NACT data
- DHCS final guidelines NACT released
 - Submission deadline extended to 8/29
 - New site locations or new agencies in the last month
- **COMING SOON** – Monthly updates of practitioner information

- **Residential Providers**

- SASH will call EVEN WHEN slots are unavailable when a caller specifically asks for that site.

- **Outpatient Providers**

- Monitoring outpatient updates to intake slot availability
- Significant # of outpatient provider sites HAVE NOT been updating daily
 - Example: Individual had no access to transportation, closest facility (within walking distance) had not updated their SBAT since January. SASH assumes they have no availability, so referred to another agency within 5 miles away.
- **COMING SOON-** Email notification reminders will go out when outpatient providers are not updating intake availability.
