Sage: Member Authorizations and Incentives
Duplicate Submissions will Delay Processing

On July 1, Member Authorizations are required for ALL services, including OTP

Do NOT submit multiple authorizations over the cutover period:
- If you have submitted an authorization, please check the Authorization Status Report or authorization form in Sage to check the status of your authorization
- Submitting multiple authorizations for the same service will not result in quicker approval
- Providers are unable to bill until an executed contract is in place. Authorizations do not become active until there is an executed contract with SAPC; services are still authorized and should be rendered but cannot be paid until a contract is active.

Incentives Pilot – data and entry claims entered within 30 days of eligibility!
- Benefits Acknowledgement ➔ Update CalOMS with existing eligibility
- Benefits Acquisition ➔ Document acquisition of new benefits
- Timely Data Entry ➔ Document timely completion of data entry
