Description

Medication Assisted Treatment (MAT) – (A) - Introductory Course – Step 1 in the MAT series

Understanding medication-assisted treatment and its role within the treatment system.

A general overview of the medications used in MAT that are available through the DMC-ODS Waiver. The overview shall address each specific medication, including the primary use for treatment and the relationship, if any, with other medications available for treatment. The training will cover the theory of MAT and how MAT can be utilized to treat substance use disorders.

Learning Objectives

1. Describe at least three (3) acute and chronic effects of alcohol and opioids.
2. Describe the prevalence of and key populations impacted by alcohol and opioids use and abuse.
3. Provide examples of at least two (2) medications that are available to treat alcohol and opioid addiction.

Who Should Participate?

California Substance Use Disorder (SUD) Treatment/Contract Providers and County Staff who are engaged in the Drug Medi-Cal Organized Delivery System (DMC-ODS) process.
