BILL SUBJECTS

Alcoholic Beverages: Retail On-Sale License: Off-Sale Privileges.

ABSTRACT

Existing law, the Alcoholic Beverage Control Act, which is administered by the Department of Alcoholic Beverage Control, regulates the application, issuance, and suspension of alcoholic beverage licenses. Existing law authorizes the department to issue various types of licenses and prohibits a person from exercising the privilege which a licensee may exercise or performing under the authority of a license unless the person is authorized to do so by a license. Existing law authorizes a person holding an on-sale general license, with respect to beer and wine, and any on-sale license, with respect to the particular beverage or beverages mentioned in the license, to exercise the rights and privileges granted by an off-sale beer and wine license.

This bill would authorize the holder of a retail on-sale license to exercise additional off-sale rights and privileges, subject to specified requirements. In this regard, the bill would authorize the licensee to sell alcoholic beverages for off-sale consumption for which their license permits on-sale consumption if the beverages are in manufacturer prepackaged containers. Additionally, the bill would authorize a licensee to sell the alcoholic beverages for off-sale consumption for which their license permits on-sale consumption when the beverages are not in manufacturer prepackaged containers if specified conditions are met, including that the beverages be packaged in a container with a secure lid or cap sealed in a manner designed to prevent consumption without removal of the lid or cap by breaking the seal.
