

**LOS ANGELES COUNTY DEPARTMENT OF PUBLIC HEALTH - SUBSTANCE ABUSE PREVENTION AND CONTROL
PREVENTION PROVIDER CONTACT LIST: ENVIRONMENTAL PREVENTION SERVICES (EPS), COMPREHENSIVE
PREVENTION SERVICES (CPS), and ADOLESCENT PREVENTION SERVICES (APS)**

ENVIRONMENTAL PREVENTION SERVICES (EPS) programs address alcohol availability and accessibility through environmental efforts that change policies, ordinances, and practices that facilitate alcohol use within the target Service Planning Area (a specific geographical region in Los Angeles County). EPS programs generally work with local citizens and leaders, government officials, and businesses/organizations to change local conditions that contribute to alcohol use.

COMPREHENSIVE PREVENTION SERVICES (CPS) programs seek to 1) change the local conditions that facilitate alcohol and drug use, 2) identify individuals who could benefit from prevention services or contribute to prevention efforts, and 3) change the knowledge and behaviors of youth and adults that contribute to community norms about alcohol and drug use. Depending on the program, services may focus more on individual services such as school-based prevention classes or more on community level services such as making changes to the local environment or changing policies/practices that contribute to substance use and/or favorable norms around use.

ADOLESCENT PREVENTION SERVICES (APS) target youth ages eight (8) through seventeen (17) and their families/caregivers and/or young adults ages eighteen (18) through twenty-four (24), who are at risk of or who have already initiated experimentation and use of alcohol and other drugs. APS services are those which are directed at reducing risk factors and increasing protective factors. Risk factors increase the likelihood of beginning substance use, or regular and harmful use, and of other behavioral health problems associated with use. Protective factors directly decrease the likelihood of substance use and behavioral health problems or reduce the impact of risk factors on behavioral health problems.
