

Improve Your Health By Walking Your Dog

Do you know that taking Fluffy for a walk can improve your health?

Research has shown that walking your dog can help you improve your health.

A 2001 study in Australia found that people who walked their dogs for at least an hour a week were most likely to get the recommended level of health-improving physical activity.

Improve your health by walking your dog daily!

A total of 150 minutes of moderate aerobic activity (i.e. brisk walking) per week is recommended by the Centers for Disease Control and Prevention

Walking 10 Minutes At A Time Is Fine:

Even a 10-minute brisk walk , 3 times a day, 5 days a week can improve your health
