

LET'S STOP THE RUMORS

THE VND REGIONAL QUARANTINE HAS NOT BEEN LIFTED

We are currently in a testing phase but the regional quarantine for virulent Newcastle disease (VND) is still in effect. Sick Bird Hotline 866-922-2473

WHEN WILL IT BE LIFTED?

We need your help! The regional quarantine will be lifted when testing shows that VND is no longer active in the area. We are working hard to finish testing, but **we need your help.** You can help us by **not moving birds, maintaining good biosecurity, allowing us to test your birds when asked, and speaking out** when someone is violating the regional quarantine.

TOGETHER WE CAN STOP VND
