TK-12 School and Youth Program¹ COVID-19 Clusters² and Cluster-Associated Cases³ October 2, 2022 – December 31, 2022

¹ TK-12 reporting is inclusive of TK-12 schools and programs serving youth including TK-12 non-instructional worksites, afterschool and day care, camps, and youth sports programs.
² Education clusters are 3 or more cases within a 14-day period as reported by school liaisons. Clusters can represent outbreaks or non-outbreaks. There may be multiple clusters at a single location. Data presented are by cluster report date.
³ Cases include laboratory confirmed cases and unconfirmed cases (e.g., positive results from over-the-counter tests) reported by Education Sites.

2023 Actions for a Safe Start to the New Year

- ✓ Protect people who are more vulnerable to illness
- ✓ Reduce respiratory virus transmission
- ✓ Take steps to minimize the impact of new COVID strains

Recommended Actions

- * Mask indoors in public spaces, and for at least 10 days upon returning to work and school, or after high-risk activities, such as travel
- * Test before gatherings
- * Stay home when sick
- * Stay up to date on the bivalent booster for COVID and the seasonal flu vaccine

Bivalent Booster Effectiveness Against New COVID Strains

A recent *New England Journal of Medicine* study showed that persons who received the updated bivalent booster had better neutralizing activity against **all omicron subvariants** than those who received either one or two monovalent boosters. **This includes:**
BA.2.75.2, BQ.1.1, and XBB

Only **20.9% of eligible people** ages 5+ in LA County have received the bivalent booster.

People as young as **6 months** are eligible for the bivalent booster
